**NEXOGENESIS**  
STREAMLINING WATER RELATED POLICIES

## NEWSLETTER

### Welcome to the first edition of the **NEXOGENESIS newsletter!**

Dear readers,

We are excited to share with you the first NEXOGENESIS newsletter!

NEXOGENESIS project kicked off its activities in September 2021, and we already count more than one year of activities and developments. Our newsletter aims to provide you with up-to-date information on the project's results, recent events, as well as other project-related topics. Keep yourself informed with NEXOGENESIS!

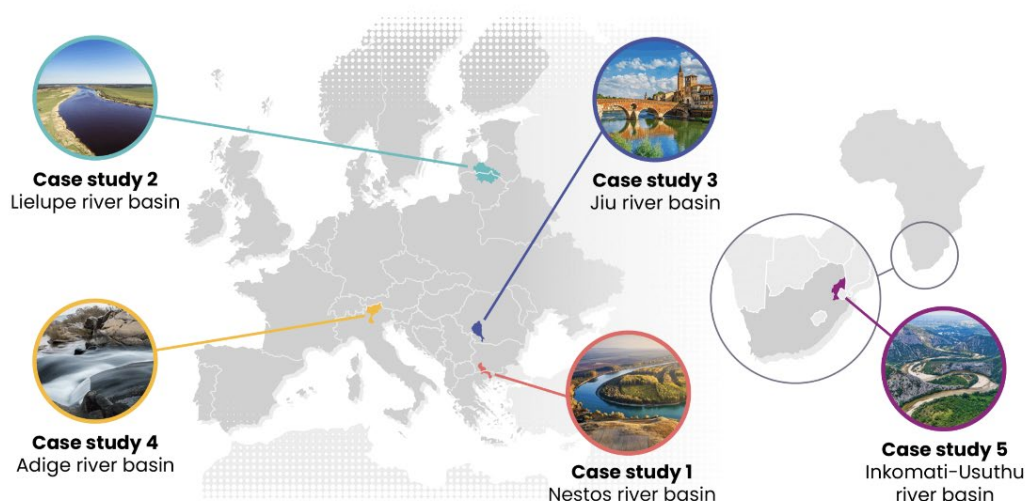

Scroll down and enjoy the reading,  
NEXOGENESIS Team

### The project in a nutshell

NEXOGENESIS is a 4-year project focused on facilitating the next generation of effective and intelligent water-related policies using artificial intelligence and machine learning to assess policy impacts on the WEFE nexus and suggest new ways to design better policies **[LEARN MORE](#)**.

## NEXOGENESIS Case Studies

NEXOGENESIS will apply and test its solutions in five Case Studies, addressing diverse transboundary water diplomacy issues, including in an African context. It will also have an impact on specific SDG goals. To discover more about the Case Studies' goals and activities, [CLICK HERE](#).

## In case you missed it

**Annual Meeting** Sept. 26-28

## First in-person NEXOGENESIS Annual Meeting in Riga

NEXOGENESIS held its first in-person annual meeting in Riga, Latvia. Here, the project's partners and coordinators spent three full days of collaboration to discuss the latest project updates and developments. Read more [HERE](#).

## Five Case Studies Stakeholders Workshops successfully held

Over this year, NEXOGENESIS held five Workshops aimed at introducing the project to stakeholders and initiating dialogues to share solutions and ideas on the nexus challenges. You can check all the workshops in the dedicated news section [HERE](#).

## Case Studies Workshops

[Explore NEXOGENESIS Factsheets](#)

NEXOGENESIS published four factsheets to keep citizens informed on a variety of topics related to the project. If you wish to understand more about the project's concepts, explore the factsheets [HERE](#).

## NEXOGENESIS in the limelight

### NEXOGENESIS experts at CEMEPE 2022 and SECOTOX Conference

NEXOGENESIS partners from the University of Thessaly, KWR Water Research Institute and G.A.C. Group took part at the 9th CEMEPE 2022 and SECOTOX Conference, held from the 6<sup>th</sup> to 9<sup>th</sup> June 2022 in Mykonos, Greece. This was a great occasion for project partners to meet with high-level WEFE Nexus experts in order to create synergies on how to build a community around the WEFE Nexus and to include NEXOGENESIS and other related projects. Read more [HERE](#). This was also an opportunity to meet Floor Brouwer, Researcher, Wageningen University & Research, and to conduct a very insightful interview on the WEFE nexus. Watch it [HERE](#).

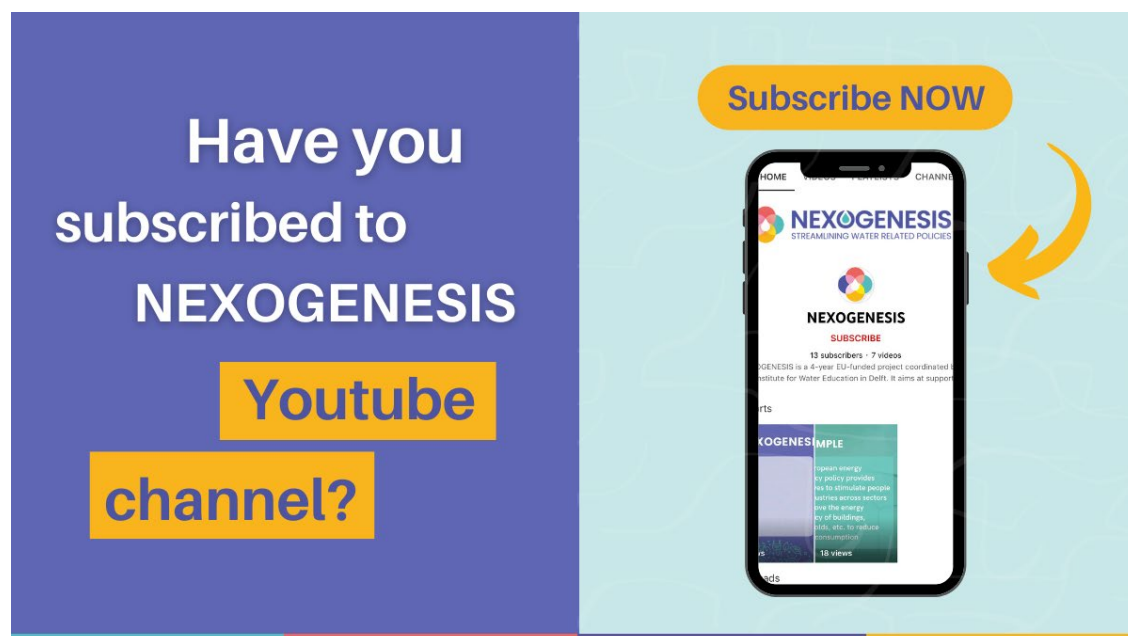

## More about NEXOGENESIS

### New Case Study #3 video is out!

The newest NEXOGENESIS Case Study #3 presentation video on the Jiu river basin is officially out. Watch the full video [HERE](#). NEXOGENESIS has released three videos

dedicated to these Case Studies, have you already watched them? Check the full playlist [HERE](#).
