

NEXOGENESIS
STREAMLINING WATER RELATED POLICIES

NEWSLETTER

Welcome to the sixth edition of the NEXOGENESIS newsletter!

Dear readers,

We are excited to share with you the sixth edition of the NEXOGENESIS newsletter!

This edition will offer you a deep dive into four years of dedicated research. We will guide you through the main outputs and findings from the project, offering you a clear overview of the main findings, case studies outcomes, and video interviews with the partners who made it all happen.

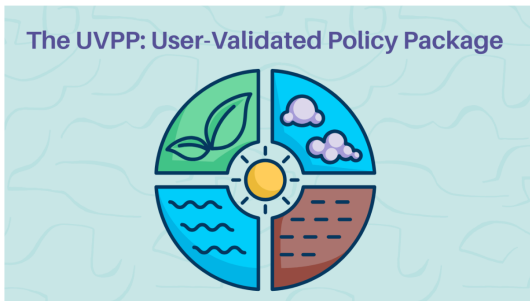

Scroll down and enjoy the reading.
NEXOGENESIS Team

Explore the Main Outputs from NEXOGENESIS

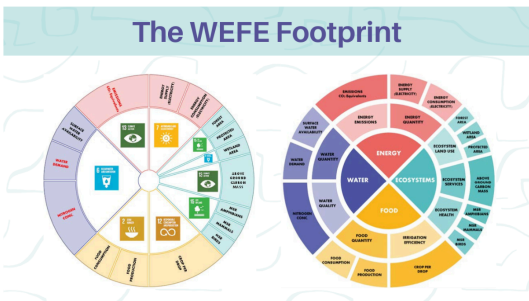

Enabling Smarter Policy for a Sustainable WEF Nexus

NEXOGENESIS proudly presents its final output: the NEPAT tool. This innovative framework empowers policymakers to navigate complex WEF Nexus challenges by evaluating cross-sectoral impacts, revealing trade-offs and synergies to enable smarter, integrated decisions for a sustainable future. [LEARN MORE.](#)

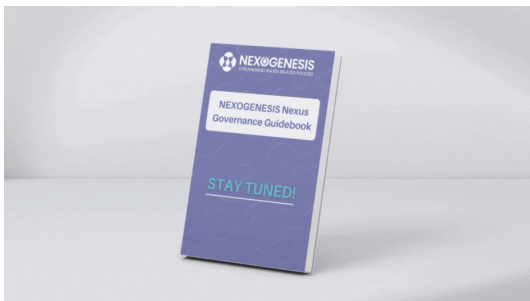

Turning Stakeholders Dialogue into Policy Reality

The User-Validated Policy Package (UVPP) generated by NXG is a set of co-created governance roadmaps which translate stakeholder knowledge into legitimate, locally-tailored policies, ensuring effective and accepted solutions for complex WEF challenges. [LEARN MORE.](#)

WEF Nexus Footprint: Making Complexity Visible

NEXOGENESIS proudly presents its final output: the NEPAT tool. This innovative framework empowers policymakers to navigate complex WEF Nexus challenges by evaluating cross-sectoral impacts, revealing trade-offs and synergies to enable smarter, integrated decisions for a sustainable future. [LEARN MORE.](#)

A Guidebook for Integrated WEF Policy

The Nexus Governance Guidebook provides a practical, step-by-step framework for collaborative policy design. It equips users with proven methods, tools, and real-world lessons to break down institutional silos and build effective, integrated strategies for managing WEF resources. [LEARN MORE.](#)

Achievements from the Case Studies

Key Transboundary Agreement Signed For Nestos River Basin

A landmark transboundary agreement for the sustainable management of the Nestos/Mesta River Basin was signed. Driven by stakeholder co-creation, the agreement establishes shared governance roadmaps to reduce water consumption and ensure the basin's sustainable future. [LEARN MORE.](#)

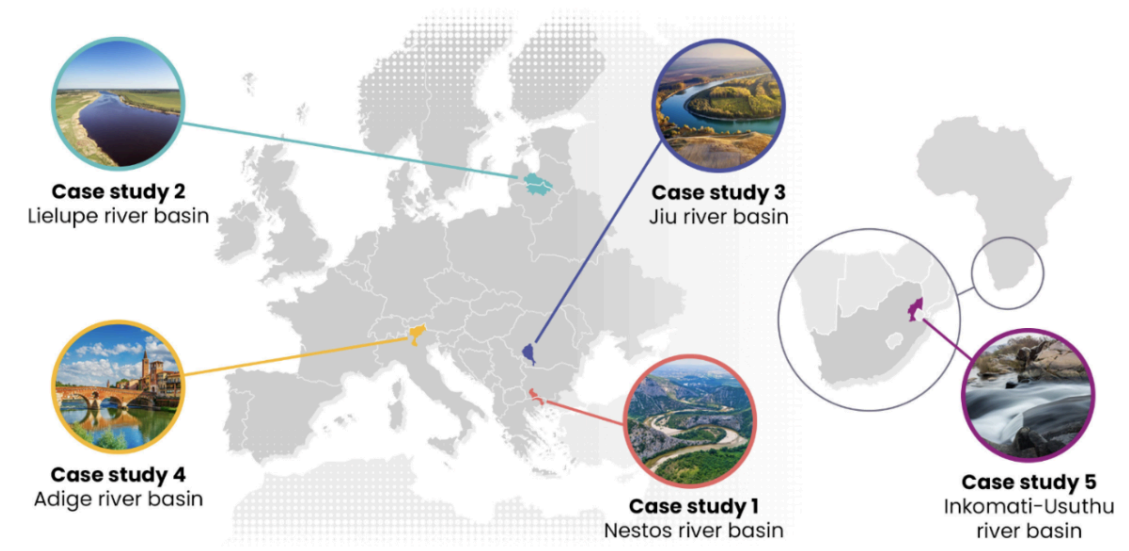

A Synthesis of Transboundary Best Practices

Want to explore the transboundary resource conflicts? This factsheet #12 synthesises the main insights, showcasing how tools like NEPAT and collaborative frameworks can overcome fragmented governance and foster sustainable cooperation between nations. [LEARN MORE.](#)

Milestones Reached in the NEXOGENESIS Case Studies

The NEXOGENESIS project successfully implements its integrated nexus approach across five diverse case studies. Through strong stakeholder collaboration and flexible strategies, it has secured key policy agreements, university partnerships, and future commitments, demonstrating a successful model for context-sensitive, sustainable resource management across different regions. [LEARN MORE.](#)

NEXOGENESIS Recap: Watch the New Interviews

Discover the NEXOGENESIS's policy impact with Stefania Munaretto from KWR.
